Summary

The Chippewa Valley .NET Users Group <http://cvnug.wi-ineta.org/> has been providing free training to the local development community since November of 2004. During this time we have never charged any attendee for the opportunity to learn.

We are thrilled you are considering becoming a company with a desire to see the local development community continue to grow and learn through sponsoring our second Code Camp and our continued effort to bring great monthly content to the Chippewa Valley. Your support allows us to offer our services for free, to anyone who is interested software development regardless if they are a professional, student or hobbyist.

Your sponsorship enables us to reach that goal while providing benefits to both your company and the local development community.

In order to meet our budgetary needs, we have created three different sponsorship levels:

- A full-size booth within the sponsor area at the code camp. This can be used to display information about your company, interact with attendees and identify your company with leaders in the Chippewa Valley Code Camp community.
